

- 1 Marca en cada recta numérica dónde están los números que se indican.

695

408

571

357

- 2 Colorea en cada caso la centena que está más cerca.

140 →  370 →  430 →  280 →  

- 3 Redondea a la centena cada número.

- 4 Redondea los sumandos a la centena y resuelve.

$$387 + 231 = \boxed{\phantom{000}} + \boxed{\phantom{000}} = \boxed{\phantom{000}}$$

$$521 + 187 = \boxed{\phantom{000}} + \boxed{\phantom{000}} = \boxed{\phantom{000}}$$
